ABOUT ME

Granddaddy Purple - Indica

Headband - Hybrid

Super Lemon Haze - Sativa

AC/DC - CBD

Extraction Process: Ethanol

Re-introduced Cannabis Derived Terpenes

TASTE/SCENT

WILL VARY BASED ON VARIETY

DESCRIPTION

Our Cannabis Derived Terpene Cartridge brings your vape experience to the next level. Unlike some that use terpenes from many plant families for flavor, this cartridge uses terpenes from the cannabis plant to allow for a more strain-specific experience. Paired with the PAX Era platform and formulated to deliver high potency vapor and a smooth, flavorful essence, our cannabis-derived terpene cartridge delivers the right dosage for both the novice and the experienced patient alike. Sira's Cartridges contain a high-quality cannabis oil created with an innovative ethanol extraction method. Our cartridges do not contain additional cutting agents like Polyethylene Glycol (PEG) or Medium Chain Triglycerides (MCT).

USAGE & STORAGE INFORMATION

Storage:

Store in a cool and dry place

Usage:

Compatible with PAX Era batteries. Experiment with voltage to find the right setting for you. We recommend around 570F.

Additives & Terpenes

Our cartridges do not contain any cutting agents like Polyethylene Glycol (PEG), Medium Chain Triglycerides (MCT) or any other kind of thinning or thickening agent, including vitamin E acetate.

For specific terpene information see Page 2
