ABOUT ME

Sativa-Dominant Hybrid

Breeder: Unknown

CANNABINOID PROFILE

Please see batch testing data

TASTE/SCENT

beta-Caryophyllene d-Limonene Linalool

DESCRIPTION

Light of Jah is a sativa-dominant cannabis strain whose name is often used interchangeably with Jack Herer, but may also refer to a Jack Herer and Afghani hybrid. This hybridized rendition still leans toward the sativa side with uplifting effects that fuel creativity and positive moods. Its flavor is a sweet combination of tropical fruit and hashy, peppery spice.

PARENT #1: Jack Herer

Sativa

Breeder: Sensi Seeds

Lineage: Haze x (Northern Lights #5 x Shiva Skunk)

Jack Herer is a sativa-dominant cannabis strain that has gained as much renown as its namesake, the marijuana activist and author of *The Emperor Wears No Clothes*. Combining a Haze hybrid with a Northern Lights #5 and Shiva Skunk cross, Sensi Seeds created Jack Herer hoping to capture both cerebral elevation and heavy resin production. Its rich genetic background gives rise to several different variations of Jack Herer. Consumers typically describe this 55% sativa hybrid as blissful, clear-headed, and creative.

PARENT #2: Unknown

Unknown

Breeder: Unknown

Lineage: Unknown

Light of Jah is disputed to either be a Jack Herer phenotype or Jack Herer crossed with an unknown Afghani strain.
