## ABOUT ME

**Sativa-Dominant Hybrid**

**Breeder:** Dungeons Vault Genetics

## CANNABINOID PROFILE

Please see batch testing data

## PREDOMINANT TERPENES

Beta-Caryophyllene Humulene Nerolidol

## DESCRIPTION

A sativa lover will find what they need in this pine-cleaner fueled flower that goes the distance. Expect clear headed focus and alertness from Tripouro. This limited release from Dungeon Vault Genetics will not leave you disappointed!

## PARENT #1: Snowcap

**Sativa**

**Breeder:** Grand Daddy Purp

**Lineage:** Snow White x Cat Piss

Snowcap produces the kind of dank stank that is the polar opposite of stealth. It is a cross of a female Snow White (Cat Piss x Jack Herer) and a male Cat Piss. The beautifully resinous snow-capped buds have a striking lemon cleaner and menthol-tinged scent.

## PARENT #2: Brandywine

**Sativa-Dominant Hybrid**

**Breeder:** Dungeons Vault Genetics

**Lineage:** Pink Champagne x Grandpa's Breath

Brandywine by Dungeons Vault Genetics is a pleasant indica strain with a calming buzz. Created by crossing Pink Champagne and Grandpa's Breath, Brandywine emits a delicate tea aroma with notes of hops and Chardonnay grapes. The effects are reminiscent of Granddaddy Purple, with relaxing physical attributes that dismiss stress without being overly sedative. Anticipate squinted eyes and a touch of appetite stimulation as well.
